widespread adoption of e-books, some publishers and authors not endorsed the concept of electronic publishing, citing issues with user demand, challenges with proprietary devices and systems.[44] In a survey of interlibrary loan (ILL) librarians, it was found that 92% of libraries held e-books in their collections and that 27% of those libraries had negotiated ILL rights for some of their e-books. The title of this stack may have been the first instance of the term 'ebook' used in the modern context.[32] E-book formats See also: Comparison of e-book formats Reading an e-book on a third-generation Kindle As e-book formats emerged and proliferated,[citation needed] some garnered support from major software companies, such as Adobe with its PDF format that was introduced in 1993.[33] Unlike most other formats, PDF documents are generally tied to a particular dimension and layout, rather than adjusting dynamically to the current page, window, or another size. Apple. With e-books, users can browse through titles online, and then when they select and order titles, the e-book can be sent to them online or the user can download the e-book.[3] By the early 2010s, e-books had begun to overtake hardcover by overall publication figures in the U.S.[4] The main reasons for people buying e-books are possibly lower prices, increased comfort (as they can buy from home or on the go with mobile devices) and a larger selection of titles.[5] With e-books, "electronic bookmarks make referencing easier, and e-book readers may allow the user to annotate pages." Many e-readers have a built-in light source, can enlarge or change fonts, use text-to-speech software to read the text aloud for visually impaired, elderly or dyslexic people or just for convenience.[166] Additionally, e-readers allow readers to look up words or find more information about the topic immediately using an online dictionary.[167][168][169] Amazon reports that 85% of its e-book readers look up a word while reading.[170] Printed books use three times more raw materials and 78 times more water to produce when compared to e-books.[171] A 2017 study found that even when accounting for the emissions created in manufacturing the e-reader device, substituting more than 4.7 print books a year resulted in less greenhouse gas emissions than print.[172] While an e-reader costs more than most individual books, e-books may have a lower cost than paper books.[173] E-books may be made available for less than the price of traditional books using on-demand book printers.[174] Moreover, numerous e-books are available online free of charge on sites such as Project Gutenberg.[175] For example, all books printed before 1923 are in the public domain in the United States, which enables websites to host ebook versions of such titles for free.[176] Depending on possible digital rights management, e-books (unlike physical books) can be backed up and recovered in the case of loss or damage to the device on which they are stored, a new copy can be downloaded without incurring an additional cost from the distributor. 1995 Online poet Alexis Kirke discusses the need for wireless internet electronic paper readers in his article "The Emuse".[75] 1996 Project Gutenberg reaches 1,000 titles.[76] Joseph Jacobson works at MIT to create electronic ink, a high-contrast, low-cost, read/write/erase medium to display e-books.[77] 1997 E Ink Corporation is co-founded by MIT undergraduates J.D. Albert, Barrett Comiskey, MIT professor Joseph Jacobson, as well as Jeremy Rubin and Russ Wilcox to create an electronic printing technology.[78] This technology is later used on the displays of the Sony Reader, Barnes & Noble Nook, and Amazon Kindle. In addition, for programming books, code examples can be copied.[6] The amount of e-book reading is increasing in the U.S.: by 2014, 28% of adults had read an e-book, compared to 23% in 2013; and by 2014, 50% of American adults had an e-reader or a tablet, compared to 30% owning such devices in 2013.[7] Terminology E-books are also referred to as "ebooks", "eBooks", "Ebooks", "e-Books", "e-journals", "e-editions", or "digital books".
